### Photograph the magnificent Golden Eagles from comfortable hides

We have fed wintering Golden Eagles at our feeding site for over a decade now and we are proud to say that this is the best place for Golden Eagles in action photography in Finland. The Golden Eagles visit our feeding site very actively during the winter, and in January there can be up to ten individuals daily. Our hides provide excellent opportunities for a great diversity of images of Eagles in flight, perching, and most importantly - Golden Eagles in action!

We offer a shorter and a longer tour in accordance to our clients' wishes. During this tour we have either three or five full days of Eagle photography at our comfortable and professional hide.

### Highlights

Golden Eagles in flight, on ground, perched on trees and fighting
