Grading: Short day walks

Group size: 4 – 6 photographers

Time: 5 – 9 August 2020

Price: 1990 € per person, single supplement 155 €

Photography during Finnish autumn – Ospreys and Brown Bears prepare for winter

Timed to capture the autumn activity in nature, this tour combines Osprey and Brown Bear photography near Russian border in Eastern Finland. In August, both Ospreys and Brown Bears are preparing for winter and it is possible to photograph them from our comfortable hides.

August is a very attractive time for Ospreys: the young birds learn to fish on their own and the adult birds start stocking up food for their long migration over continents. This provides an average of 15 - 30 strikes per day, at a distance of only 5 - 30 meters! This tour offers excellent chances to boost up your bird photography with lots of action.

Brown Bears already prepare for their winter hibernation and visit the feeding site actively in August - at times bringing their cubs with them. Bears fatten themselves to survive until next spring and are eager to eat. Several White-tailed Eagles visit the feeding site as well and offer photo opportunities while flying in front of the hides. Night in a Brown Bear hide is definitely an experience to remember!

ITINERARY

Day 1 Arrival to Kuusamo

Arrival to Kuusamo in the afternoon. Pickup from the airport and transportation to accommodation. After early dinner, drive to professional Osprey photography hides where we photograph fishing Ospreys until sunset.

The local fish farm where our hides are located was established in the late 1960's and Ospreys have visited ever since. Fish ponds provide easy source of food for Ospreys - essential to successfully raise their young. Due to its long history, Ospreys have gotten used to people working on the farm. Therefore it is possible to change hides even in the middle of the session to get different shooting angles or light on the birds.

Other possible species from the hides: White-tailed Eagle, Lesser Black-backed Gull, Black-headed Gull, Herring Gull, Raven, Short-eared Owl.

Day 2

Start early in the morning at 4.00 and drive to Osprey pro-hides for morning light and action. Return to accommodation for late breakfast between 9.00 - 10.00.

After breakfast, it is time for a well-earned rest and to download images. After early dinner at 16.00, we head to professional Brown Bear hides near the Russian border for evening session until sunset. We stay in the hides overnight so we are ready in the hides for morning action. It gets dark in the middle of the night - there is time to rest for 4 - 5 hours.

Day 3

Bear photography will continue until 7.00. Return to accommodation for a proper breakfast - normally around 8.00 - 9.00. A well-earned rest after breakfast. After early dinner at 15.00, we head back to Brown Bear pro-hides for photos until twilight hours. Overnight in the hides.

Day 4

Bear photography will continue until 7.00. Return to accommodation for a proper breakfast - normally around 8.00 - 9.00. A well-earned rest after breakfast.

After early dinner, drive to Osprey pro-hides where we photograph fishing Ospreys until sunset.

Day 5 Departure from Kuusamo

Early morning start on tour's last day in pro-hides for fishing Ospreys. After the last Osprey photography session transportation back to accommodation around 14.00 for dinner and packing of your luggage. Tour ends at Kuusamo airport in the evening.

For more pictures: [Finnature's Flickr Gallery](#)

Price includes: Finnature guiding throughout the journey. Use of professional photography hides. All meals and accommodation. All land transportation from Kuusamo airport. For extra price transportation from Oulu (bigger airport) if needed.

Accommodation: [Oivangin Lomakartano's](#) log villa; please note that two nights are spent in Bear hides

Food: Local restaurants and picnic lunches

Leader: Finnature guide

Possible extensions: Red-Throated Diver in Kuusamo, Wolverine and Wolf photography in Kuhmo

Booking: shop.finnature.com

Recommended flights: We recommend to arrive to Kuusamo in the afternoon and to depart from Kuusamo in the evening.

Please notice: The itinerary might change due to weather conditions or bird situation. Unfortunately we cannot guarantee any of the species, but our expert Finnature guides do their utmost to ensure the best possible photography opportunities during the tour.
