The Mystical Eagle Owl

Photograph **Eagle Owl** - the Europe's largest Owl - at Finnature's forest feeder.

Autumn is a great time for Eagle Owl photography. Territorial couples bring the young ones to the feeder so there will be several individuals visiting at the site.

During this tour you have chances to get a variety of different photos of Eagle Owls. Adults and young ones are visiting at the feeder. In September, night-active Eagle Owls are often active during the light hours, but nights are already dark. For night time, we have set up LED lights so no need for flashes.

Highlights

Eagle Owl, Sparrowhawk, Eurasian Jay, Great-spotted Woodpecker, Great Tit, Willow Tit, Magpie, Red Squirrel
