

## Amazing Hokkaido, Japan

**Destination:** Hokkaido, Japan

**Focus:** Bird photography, some mammals and stunning landscapes

**Grading:** Moderate walks only

**Group size:** 6 - 14 photographers

**Time:** 15 - 25 February 2026

**Price:** 5750 € per person

**Supplements:** Single room 925 €

Please notice that there are limited number of single rooms available!

### Experience the magic of Hokkaido

The beautiful wintery island of Hokkaido offers great photography opportunities. Amazing numbers of very approachable birds can be found. It is almost unbelievable how many **Steller's Sea Eagles** and **White-tailed Eagles** you can see at the same time or how close to **Whooper Swans** you can get!

Birds are the main target of this tour but also landscapes in north Japan are like a fairytale. Imagine Whooper Swans in a misty lake, mountains in morning light or simple Japanese trees in the middle of fields. All this makes Hokkaido a very popular destination amongst photographers.

Experience also Japanese culture with extremely polite people, wonderful food and onsens (Japanese bath). Something you will never forget!

**This will be our 13th photography tour to the northernmost island of Japan - Hokkaido.**

In 2026, we will have another relaxed-paced tour and stay two nights at each destination. This will allow more relaxing time between towns and a good selection of cruises and evening photography!

**Highlights:** Red-crowned Crane, Steller's Sea Eagle, Blakiston's Fish Owl, White-tailed Eagle, Whooper Swan, Black Kite, Japanese landscapes, Hokkaido Red Fox, Hokkaido Red Squirrel, Sable and Ezo Sika Deer

**Notice - no hide photography!**

## ITINERARY

**Day 1** - This tour will start from Kushiro airport, Hokkaido on **15th of February 2026 at 8 pm.**

We will meet you at Kushiro airport and drive approximately 30 minutes to Tsurui. After a Japanese dinner it's time for a good rest.

### Day 2 - TSURUI

Relaxed start with breakfast. We spend the whole day at **Red-crowned Crane** feeding station. Here it is possible to take low-angle photos of these beautiful Cranes. We continue taking photos until dark. Lunch can be bought from a local shop. In the evening, enjoy a Japanese dinner at the accommodation.

### Day 3 TSURUI - AKAN - NEMURO

We start with an early pre-breakfast excursion to Otowa Bridge where **Red-crowned Cranes** can be photographed at their roosting site. The free-flowing river steams in cold weather and trees are covered with thick frost. This is an iconic place for Cranes in river landscape images, especially on clear mornings.

After breakfast we pack our luggage and drive over the mountain to Akan Red-crowned Crane feeding station. Other species possible today will be **White-tailed Eagle**, **Steller's Sea Eagle**, **Black Kite** and **Whooper Swan**. There is a small café in Akan Crane Center where it is possible to have lunch. Late afternoon drive from Akan to Nemuro. In the evening Japanese dinner at our hotel.

### Day 4 NEMURO

After breakfast we photograph Eagle feeding session at 8.30 at Lake Furen. In previous winters approximately 100 **Steller's Sea Eagles** and **White-tailed Eagles** have gathered on the ice right next to a restaurant here. There will be good opportunities to photograph flying Eagles and **Black Kites** from the restaurant's car park. Birds often pass at a very short distance! There are excellent chances for flight photography and with a long lens one can get some good action shots of fighting Eagles on ice or in the air! With luck a **Red Fox** might visit the feeding site.

In afternoon drive to harbours for **ducks and Red Fox**.

#### Day 5 NEMURO- KUSSHARO

After breakfast we pack our luggage and photograph the Eagle feeding session once more at Lake Furen. We then continue our journey to a small village near lake Kussharo. On the way we will stop in lake Mashu for landscape photography. We will also stop for any other wildlife on the roadsides. Lunch from the roadside shops and dinner at the accommodation.

#### Day 6 LAKE KUSSHARO

Lake Kussharo is a great place to photograph **Whooper Swans**! Swans like to spend the winter here because of the hot springs that keep the water open close to the shores. Optional pre-breakfast Whooper Swan photography session. Back to Swans after breakfast for a couple of hours. Break in the middle of the day at the hotel in order to empty memory cards and charge batteries. Afternoon photography session with Whooper Swans at two different locations at Lake Kussharo until dusk.

It might be possible to photograph **Ezo Sika Deer, Japanese Wagtail, Dusky Thrush, Thick-billed Crow, Japanese Bulbul** and maybe also **Falcated Duck** and **Spot-billed Duck**.

#### Day 7 KUSSHARO- RAUSU

Pre-breakfast **Whooper Swan** photography session.

After breakfast drive to Rausu. Lunch from the roadside shop. Visit to famous peninsula to photograph fox and Sika Deer on the way to Rausu. Dinner at hotel.

#### Day 8 RAUSU

Early mornign boat trip to photograph **Steller's Sea Eagles** and **White-tailed Eagles**. After boat trip we will go back to accommodation for breakfast. Breakfast will be very Japanese style. Day break.

In the afternoon we will visit on famous peninsula where we can often find **Ezo Sika Deer** and **Hokkaido Red Fox**.

Dinner at hotel.

#### Day 9 RAUSU - NAKASHIBETSU

The second pre-breakfast boat trip to photograph **Eagles** for 2 to 3 hours. After boat trip we will go back to accommodation for breakfast.

After breakfast we pack our luggage and make our way to Nakashibetsu. At the hotel is a bird feeder with **Jays, Tits** and **Woodpeckers** visiting and there are also possibilities for **Hokkaido Red Fox, Sable** and **Hokkaido Red Squirrel**. **Greater Pied Kingfisher** might be seen here.

This is a very nice Japanese spa-hotel with excellent Japanese cuisine and very friendly people working. Try also to find time to enjoy a Japanese hot bath here. Local souvenirs can be bought from this hotel.

In the evening/night, we will wait for the largest Owl in the world - **Blakiston's Fish Owl**. There is a feeding place for the Owl and it is possible to take photos through a window with artificial lights. Occasionally the Owl is still around in the next morning light!

#### Day 10 NAKASHIBETSU

Today we start with breakfast. Today we have time to relax after a long tour. Time to photograph birds and Sable at the feeder and surrounding areas during the day. Here is a beautiful river valley with old forest along the river. If you are very lucky you might even see a glimpse of Flying Squirrel here. SEcond night for **Blakiston's Fish Owl**. In the evening there might me other hotel guests waiting for the Owl but during the night time it wont be too crowded.

#### Day 11 NAKASHIBETSU - KUSHIRO

Photography at the hotel. After breakfast transportation to Kushiro airport. This tour ends in Kushiro airport around midday.
